

23L PROFESSIONAL MEDICAL RESPONDER TRAUMA BAG

The Professional Responder Bag organises kit and gives easy access in an emergency. A 23L rucksack, perfect for first responders. This backpack features a set of 3 internal organising pouches – perfect for a modular approach. The PVC material is easy to clean and the bag weighs only 1kg (2.2lbs) making it easy to use while not compromising on quality. Immediate fumble-free access and identification of the correct product is vital in an emergency. The trauma bag is designed to offer all the versatility of a rucksack.

Life support backpack
Designed to carry out rescues or interventions in multiple scenarios, including areas of difficult access, mountain and/or confined spaces
Developed to house vital medical equipment safely
