

ARCTIC SURVIVOR FLOTATION SUIT

When working in or around water, being prepared for all possible eventualities is essential. Garments which have inherent buoyancy, as well as water and wind resistance are essential. Easily distinguishable buoyant clothing is vital too as it makes it easier for crew mates and emergency services to locate you in the ocean. Northern Divers Flotation Suit is ideal for use on off shore wind farms as well as general deck and sailing use.

- > EN343 rating
- > Incredible comfort and mobility
- > Durable lightweight build
- > Essential when working near water
- > Compatible with bulky helmets, life jackets and safety boots

Our Arctic Survivor Flotation Suit is a versatile garment that is suitable for various tasks performed near water when keeping warm and protection from the water are essential.
