80 - 800 LUMENS | RECHARGEABLE

## CHARGER INSTRUCTIONS

- 1. Look carefully at the shape of the smaller plug on the USB cable and insert it into the corresponding port on the charger.**
- 2. Ensure you insert the battery into the charger the correct way, i.e. with the battery's poles (- and +) touching the corresponding terminals. The correct battery position is labelled on the charger.**
- 3. The charger's light will be green when plugged in, will turn red when the battery is inserted, and will turn green when the battery is fully charged.**
- 4. Battery charge time is 2.5-3 hours.**
- 5. When the battery has finished charging, disconnect the charger from the power source (switching off the power source if necessary), and remove the battery from the charger.**
- 6. It is normal for the battery/charger to become warm when charging.**
